Ms. Deborah S. Flack
Superintendent of Schools
Sauquoit Central School District
2602 Oneida Street
Sauquoit, New York 13456

Dear Ms. Flack:

RE: H.R. Beebe

I am writing to extol the work of H.R. Beebe, Construction Manager. H.R. Beebe and the Carthage Central School District have a long and beneficial relationship. H.R. Beebe has been the construction manager on four capital projects, including one currently in phase 2. The projects total over \$41 million and include the renovations of our Middle School, High School, Carthage Elementary and Black River Elementary schools as well as the construction of a brand new West Carthage Elementary building.

Throughout all of these projects, Beebe was instrumental in each project's budget, bidding documents and project schedules. It is to Beebe's credit that our projects were always finished on time and project funds were well managed. They bring regular communication to the Board at meetings and construction expertise to the project's planning, scheduling, and daily oversight. Having Beebe working for us provided on-site management for the Carthage Central School District. The successful completion of all of these capital projects is due in large part to the professional services of H.R. Beebe.

Sincerely yours,

Carl P. Mangee, Ph.D.
Superintendent of Schools
