Re: Utica Corporation
Harza No. 8061

Dear Greg:

This letter is being sent to acknowledge the efforts put forth by all the people at H.R. Beebe who contributed in making the Utica Corporation - Consolidation project a success.

It has been a pleasure to be associated with a group of individuals that were able to work as a team to accomplish the goals of the project.

Although the project timeline was difficult and the work sequencing required a great amount of flexibility, your work forces were able to put forth the cooperative effort needed to focus on completing each task at hand.

In closing, Harza looks forward to working with your firm on future projects.

Sincerely,

Carmen A. Luppino
